

IS COMMITTEE HOODING UP REPORT?

Senatorial Discussion Reveals Possible Scheme to Delay Statehood.

FAVORABLE REPORT HAD BEEN ORDERED

Washington, D. C., July 6.—When senator Sutherland announced today that he would speak next Tuesday on the initiative, referendum and recall, as applied to the Arizona constitution, he started a discussion which laid bare the fact that the statehood resolution is evidently being purposely withheld from the senate, although ordered reported two weeks ago.

When Sutherland made his announcement, senator Bristow, an avowed friend of statehood, asked senator Nelson, in the absence of senator Smith, chairman of territories committee, who is still in Michigan, when the resolution would be reported, Nelson stated that he was one of minority on that committee, and could give no information.

Ordered Favorably Reported. Senator Shively then volunteered to the senate information that two weeks ago last Saturday, the committee, by a vote of six to three, had ordered the bill favorably reported and that he did not know why it had not been heard from. That ended the discussion this morning, but it is probable now that unless it is reported by Smith within the next day or two, a majority of the committee will report it over his head.

Cole Before Committee. Charles E. Cole, superintendent of the camp McDowell Indian, school of Arizona, was a witness before the committee investigating the expenditures in the interior department today. He was followed by L. Chitt, of Phoenix, supervising engineer for the reclamation service in the southwest.

Gronna Attacks Reciprocity. An attack on Canadian reciprocity on the ground that it surrenders the market of the American farmer without any recompense, that the agreement was an usurpation of authority by the president and that the bill should have originated in the house as a revenue measure, was made in the senate today by Mr. Gronna of North Dakota, a Republican insurgent.

Senator Gronna declared the farmers of this country were almost unanimous in their opposition to the reciprocity bill, that their indifference was apparent only to those viewing the farmers' attitude with prejudiced eyes, and that probably some of those "so busily engaged in discovering that the farmers are indifferent, will have occasion to change their opinions when the ballots are counted."

In having the bill framed and trying to force it through congress, said senator Gronna, the president exceeded his constitutional powers, a decidedly serious violation, he added, because it was in accordance with a pledge given to a foreign nation.

"The president," he continued, "has apparently come to the conclusion that he represents the people of this country both as executive and legislature, and that the two houses of congress are merely two bodies of men provided for by the constitution which he cannot unfortunately get rid of, but which are to be ignored and coerced whenever he deems it necessary or expedient."

Mr. Gronna referred to what he called the "strange unwillingness" of the supporters of the reciprocity agreement to explain its benefits and to defend it and the president's action on the floor of the senate. He contended that the goods on which the duties have been removed are almost without exception goods that Canada will sell to us.

He denounced the agreement as a cloak to hide the adoption of a neo-economic and industrial policy out of harmony with Republicanism, a policy which he said the rank and file of the party would repudiate, and he condemned the policy of placing food products and raw materials on the free list and retaining a protective duty on manufactures.

WILL RENEW FIGHT ON COAL CARRIERS. Washington, D. C., July 6.—The government will renew the fight to disassociate the great coal carrying railroads from their virtual control of mines and thus vitalize the commodities clause of the interstate commerce law. A test case against the Lehigh Valley railroad will be made today in the United States court in Philadelphia.

GOING TO SEE DEAR OLD LUNNON. R. W. Wilmore, of the Republic coffee company, and Tom Zimbleman, left Thursday on the Golden State limited for Chicago and New York. From there they will sail for London to spend two months in the English capital. They will return home in the fall.

Edward Freeman left Wednesday morning on a business trip up the valley.

FEMALE RAFFLES IS TERRORIZING A TOWN. Colorado Springs, Colo., July 6.—A female "Raffles" attired in men's clothing the police say, has been perpetrating the many burglaries that have terrorized the fashionable north end of Colorado Springs during the last several weeks.

That the burglar is a woman was not known until Tuesday morning. While robbing the home of Mrs. Anna Williamson, 830 East High street, the girl accidentally awakened Mrs. Williamson. The latter saw the girl burglar standing near a window, a street light disclosing her form to be that of a woman in men's clothes.

The burglar pointed a revolver at Mrs. Williamson while she carefully made her escape through the window.

DEATH'S TOLL HEAVY IN CHICAGO

Two Hundred and One Die in Five Days Before Heat Wave Is Ended.

BACKBONE OF HOT WEATHER IS BROKEN

SIX DEATHS OCCUR IN BOSTON DURING DAY. Boston, Mass., July 6.—Six deaths and 30 prostrations up to 1 p. m. was today's human toll exacted by the heat in this city. At noon street thermometers registered 105° degrees in the shade. In several Massachusetts cities and towns industrial establishments were closed for the remainder of the week.

Chicago, Ill., July 6.—Two hundred and one deaths and 273 prostrations was the toll exacted by Chicago's record breaking hot wave which lasted for five days. One hundred and twenty-five infants, who died from the heat, are included in the list of dead.

The hot wave was broken shortly after one o'clock this morning by rain which brought with it a cool breeze and a steady drop in the temperature until nine o'clock it stood at 78, as compared with 93 for the same hour yesterday.

The official weather forecaster predicts cooler, unsettled weather today, with thunderstorms for tonight. Chicago is feeling an ice and milk famine as the result of the continued hot weather.

No Change in Boston. Boston, Mass., July 6.—The official temperature at 10 a. m. today was 93 degrees, exactly the same as that of yesterday, which was the hottest day ever experienced in Boston. The heat has directly caused 10 deaths in New England, and there have been 47 drowning accidents.

Rain Helps Port Worth. At Fort Worth, Texas, a light rain fell today. Last night an inch of rain fell at Niborara, Neb.

Relief at Kansas City. Kansas City, Mo., July 6.—With temperatures over the southwest at 70° this morning from five to 10 degrees lower than at the same hour yesterday and light showers in sight over most of the territory, decided relief from the extreme heat of the last four days was experienced today.

WOMEN AND PITY WIN A VICTORY. Italian Woman Acquitted of Murder Charge in Colorado Court. Leadville, Colo., July 6.—Women and sentiment won a victory yesterday when the murder charge against Assunta Capra, an Italian woman who killed her husband here six weeks ago, was dismissed in Judge Carander's court.

The women of the state had taken an interest in the case to the extent of besieging district attorney Hogan with requests that the woman not be prosecuted, as they said she was justified in killing her husband. Mrs. Capra is about to become a mother.

BOY SCOUTS WILL CLIMB MOUNTAINS. Will Shoot Fireworks From Franklin's Summit Friday Night. The tall end of the Fourth will be celebrated by the El Paso boy scouts on Friday night on the top of Mount Franklin. The scouts will leave for the mountain early in the day and will take with them, besides their full camping equipment, a large quantity of fireworks, donated by some of the El Paso merchants.

The program will begin at 10 o'clock, when the red fires will be lighted, and will be followed by a fire drill, which will be plainly seen, as each scout will carry a torch. After the drill will come the rockets.

When the program is finished there will be a big "feed" waiting for the boys. They will spend the night in camp and return to the city Saturday morning.

REAPPORTMENTMENT IS FAVORABLY REPORTED. Washington, D. C., July 6.—The congressional reapportionment bill providing for a house membership of 435 was favorably reported to the senate today by senator Shively of Indiana.

REAPPORTMENTMENT IS FAVORABLY REPORTED. Washington, D. C., July 6.—The congressional reapportionment bill providing for a house membership of 435 was favorably reported to the senate today by senator Shively of Indiana.

REAPPORTMENTMENT IS FAVORABLY REPORTED. Washington, D. C., July 6.—The congressional reapportionment bill providing for a house membership of 435 was favorably reported to the senate today by senator Shively of Indiana.

MILITIA TO PROTECT NEGRO

Accused Slayer of Police Chief May Be Lynched by Colorado Mob.

TROOPS ORDERED TO TROUBLE SCENE

Denver, Colo., July 6.—Governor Shafroth today ordered out a company of militia at La Junta, Colo., to prevent the possible lynching of Ben Harris, the negro accused of killing chief of police Craig at Rockyford Tuesday night.

Captured at Rockyford. Harris was captured this morning at Rockyford and hurried to La Junta in an automobile. It is reported that a mob is forming at Rockyford to lynch him.

Capt. F. B. Bartlett, of Denver, was sent to La Junta at 11 o'clock to take charge of the local company and governor Shafroth has notified three other companies to be ready to go to the scene if required.

Found in Parsonage. Harris was discovered in the parsonage of the negro church at Rockyford. He had two bullet wounds in the head, indicating that the officers had fired upon him at the time of his attempted arrest.

WIRELESS AIRSHIP EL PASOAN'S IDEA. Fred Barnes Invents Monoplane and Will Try a Unique Power.

Fred Barnes has just completed a model monoplane at his shop in the rear of his home at 916 North Kansas street. The machine is modeled after the Blériot monoplane and combines all the latest ideas along with several of his own. The monoplane measures eight feet from tip to tip, and is 10 feet long. He expects to operate it by wireless methods. The frame work is made of special imported bamboo, and is tightly bolted together and is wrapped with double annealed steel piano wire. The main planes are covered with rubber-silk, and the rudder is covered with linen paper, which is used on all practical machines. The cost of the machine has totaled \$50 and nothing but the best material has been used. The machine has been in the course of construction for the past four months, as delays were caused several times by having to wait for materials.

Barnes has had to rethread all the bolts, and much care had to be used to avoid splitting the brittle bamboo. Several trial flights have been made and the machine gives promise of satisfactory work. Barnes is at present busy in installing an electric motor in the monoplane, and trailing wires will be used at first to convey the "juice" to the motor, but he has a plant in mind to control the machine by wireless, which he will endeavor to patent if it works on this machine.

Barnes has made several successful gliders. He will later make a larger machine copied after his model, which he says will exceed 75 miles per hour.

POLICE DISPERSE MEXICO CITY MOBS. Two Are Killed and Five Wounded in Clash in Suburbs. Mexico, City, June 6.—Two persons were killed and five others seriously injured during a charge of the police on a mob near the street car barns near Indianilla, just outside this city today.

The rioting occurred when an effort was made to move cars into the suburb. The cars were escorted by mounted police who rode into the crowds of strikers and their sympathizers and used their sabers freely.

The dead were striking motormen of whom a great number had gathered about the cars, defying the guards. Many other less serious attacks were made on cars at different points. Few patrons patronized the cars.

The local street car company made little headway in its attempt to run cars today. A small riot followed an effort to operate cars on a suburban line. Two blocks from the barns the cars were stopped by a mob, which pelted the crows with stones and smashed the car windows. Eight or 10 persons were injured.

A further conference of representatives of the strikers with the company's officials will be held today.

EIGHTH STAGE OF AIR FLIGHT MADE. Next Stage Will Be From Calais to Paris—Ved-erines Leads. Calais, France, July 6.—The covery of French aviators that descended on the English coast last Monday took wing from Dover and at daylight and a half hour alighted on soil of France. The flight over the Straits of Dover was accomplished easily with favorable weather. Ved-erines led the way. This completes the eighth stage. The next leg will be from Calais to Paris with a stop at Amiens completing the international circuit between the French and British capital.

HEAVY TRAVEL TO EAST. Travel to Clouderport and the east continues heavy. There was a rush at the union station Thursday afternoon. Before the limited left for the east, many of the passengers going to Clouderport for the remainder of the summer.

Grand Old Man Of Canada Is 91 Now

Lord Strathcona, the grand old man of Canada, high commissioner in London for Canada, who, according to recent announcement made in London, is to resign, owing to his advanced age.

Is "Kissless Bride" Of New York Banker. New York, N. Y., July 6.—Mrs. Edith Russell Gambler, the "kissless bride" whose suit for separation from her husband, Edward J. Gambler, a bank cashier of New York, was one

of the most unique and spectacular divorces before a New York court, owing to its unusual charges of not enough kisses by the bride, is now made defendant in a suit for annulment of marriage brought by her husband. The decision in her case has been reversed.

STEEL CONFERENCE CONCLUDES SESSION. Plans Are Outlined for an International Steel Association. Brussels, Belgium, July 6.—The steel men concluded the business which had called them together from nine steel producing countries in a brief session today and adjourned. Most of the Americans left for Paris late in the afternoon.

The conference appointed a committee of 30, made up of members proposed by each national group, to work out a plan for an international steel organization and submit it to the full conference when called.

The committee organized by making judge Gary of the United States steel corporation, chairman, and W. B. Peet, of England, secretary, and adjourned to meet again when summoned by the chairman.

Judge Gary said distinct progress had been made toward "a common world code of feeling and practice in steel affairs."

He is satisfied with the results thus far accomplished through the international exchange of opinion.

HARBOR STRIKERS FIGHT THE POLICE. Serious Rioting Occurs in Harbor District of Amsterdam. Amsterdam, Holland, July 6.—There was hot fighting in the harbor district here between rioters on the one hand and the police and troops on the other early today. The strikers stoned the police and the troops replied with their rifles.

The striking shipping men then produced revolvers in the fusillade that followed a number of persons were wounded.

The troops ultimately routed the strikers.

HEAVY TRAVEL TO EAST. Travel to Clouderport and the east continues heavy. There was a rush at the union station Thursday afternoon. Before the limited left for the east, many of the passengers going to Clouderport for the remainder of the summer.

HEAVY TRAVEL TO EAST. Travel to Clouderport and the east continues heavy. There was a rush at the union station Thursday afternoon. Before the limited left for the east, many of the passengers going to Clouderport for the remainder of the summer.

CHALLENGES AUTHORITY OF COURT

John J. McNamara Springs a Surprise in Los Angeles Court.

Los Angeles, Cal., July 6.—The defiance of the McNamara dynamite conspiracy case sprung a surprise today when John J. McNamara, the accused Indiana labor leader, and his brother James, were called into judge Bordwell's department of the superior court.

Challenged Court. Both men were summoned to plead to 19 charges of murder, the result of the destroying of the Times newspaper plant on October 1, 1910. In addition, John J. McNamara expected to plead to the charge that he had conspired to destroy the Llewellyn ironworks. Instead he challenged the jurisdiction of the court, claiming that it had no right to exact a plea or to try him on either the 19 charges of murder or the Llewellyn ironworks because the grand jury was biased and because he was extradited from Indiana, not for murder, but for alleged dynamiting.

One Motion to Quash. The action plainly surprised the prosecution. A motion for the quashing of the indictments was made only in the case of James B. McNamara, who entered no plea whatever, holding that the indictments against him should not stand because the grand jury was biased and because Earl Rogers, who acted as a special district attorney to aid the inquisitors during the investigation, had previously been active on behalf of the Times and Merchants' and Manufacturers' association during the search for evidence.

The prosecution met the move of defiance with a motion to disallow the plea of jurisdiction. An argument on the relevancy of John McNamara's action which promises to continue until night ensued.

THOUSANDS GATHER FOR ENDEAVOR MEET. President Taft Is to Address Gathering at Atlantic City, N. J. Atlantic City, N. J., July 6.—Thousands of members of the society of Christian Endeavor arrived in this city today for the 25th international convention of the organization.

The formal opening will take place this evening, but the annual meeting for the election of officers will be held this afternoon. The Rev. Dr. Francis E. Clark, the founder of the United Society of Christian Endeavor, probably will be re-elected president.

President Taft tomorrow will speak at two meetings on the pier.

ENVOYS REPORT THE CAPTURE OF HORSES. Have Not Yet Been Able to Reach the Magonista Band. Gen. Blanco has received word from his two envoys, Inez Salazar and Francisco Luis, who were sent to treat on peace terms with the Magonista bands who are operating south of Juarez, that they have not been able to reach the bands as yet. The two men, however, said that they had captured two insurrecto soldiers of the Magon army and that they had 10 horses. The men could not give a good account of themselves to the envoys and so will be held, together with the horses, until their case is cleared up. The men were captured near Guzman.

DISPLAY OF FINE DRESSES IN COURT. Girls Who Shot Stokes Are Arraigned in New York Police Court. New York, N. Y., July 6.—There was a display of summer finery that made the crowd in the tombs police court today forget the heat when Miss Ethel Conrad and Miss Lillian Graham appeared for examination on the charge of attempting to murder W. E. D. Stokes, the millionaire hotel man. In contrast to the defendants, Mr. Stokes looked pale and worn. Mr. Stokes, as the first witness, narrated the scene of June 9 when he was shot.

MORE THAN MILLION FLIES SLAUGHTERED. Pile of Flies Three Feet High in San Antonio as Result of Contest. San Antonio, Tex., July 6.—One and a quarter million dead flies in one heap, making a pile three feet high and five feet wide, represents the slaughter wrought by small boys as the result of a fly killing contest which closed today. Robert Basse carried off the first prize of \$10 with an official record of 484,320 dead flies.

A THIRD HORSE HELPS PULL AERIAL FIRE TRUCK. Dan and Mexico, the bay and brown horses that have been pulling the large aerial truck for the central fire company for the past 18 months, are to have their work lightened by the addition of a third horse. The new horse, Tom, is a dapple gray that has been pulling one of the engines at the Sunset station, and whose running mate died a few days ago. In size and weight, he is about the equal of the two horses he is to assist.

CHALLENGES AUTHORITY OF COURT

John J. McNamara Springs a Surprise in Los Angeles Court.

REFUSES TO PLEAD TO DYNAMITE CHARGE

Los Angeles, Cal., July 6.—The defiance of the McNamara dynamite conspiracy case sprung a surprise today when John J. McNamara, the accused Indiana labor leader, and his brother James, were called into judge Bordwell's department of the superior court.

Challenged Court. Both men were summoned to plead to 19 charges of murder, the result of the destroying of the Times newspaper plant on October 1, 1910. In addition, John J. McNamara expected to plead to the charge that he had conspired to destroy the Llewellyn ironworks. Instead he challenged the jurisdiction of the court, claiming that it had no right to exact a plea or to try him on either the 19 charges of murder or the Llewellyn ironworks because the grand jury was biased and because he was extradited from Indiana, not for murder, but for alleged dynamiting.

In size and weight, he is about the equal of the two horses he is to assist.

REGULARS AND MADEIRISTAS CLASH

Attack Made on Barracks at Torreon and Federals Put to Flight.

BANDITS ATTACK AND KILL RANCH CLERKS

Torreon, Mexico, July 6.—In a clash between Maderistas and forces of the sixth battalion of infantry at the temporary barracks in Acra's lumber yard, opposite the Chinese laundry, Capt. Antonio Ceballos received a gun wound in the back. Capt. Ceballos was the paymaster of the federals and his trunk was robbed of 400 pesos. The Maderistas attacked the barracks after having affiliated with the regular troops for several days, in an endeavor to get them to desert, this, however, without the knowledge of the Maderist officers.

Not over 20 shots were fired by the attacking party and in less than 10 minutes the number of Maderistas surrounding the barracks was increased to 15, then to 40 and finally a large part of the reserve force was on the ground in command of officers who arrived after the trouble was over.

Scramble for Maderistas. Then came a scramble for the Maderistas, which were left by the fleeing soldiers. These were appropriated by the Maderistas before the officers could interfere. The barracks by this time had become entirely deserted. The regulars, whether from fear or a desire to desert, had seized the opportunity to leave the command and hurried away, several discarding portions of their uniforms in the streets and others begging pedestrians and on-lookers to accept their cartridge belts. Former instructors upon the escaping regulars to discard their clothing and to join the Maderistas ranks, but this occurred previous to the arrival of the republican officers.

It is said that an effort was made by a number of volunteers on Saturday to induce the regulars to desert, but they held that discipline was too strong to break away from. Many of these troops are recruited again.

Bandits Attack Hacienda. Bandits made an assault on two of the properties of Joaquin Serrano, the multimillionaire Spanish hacendado late last week and in the altercation which occurred at one of the places, his Santa Teresa property, three clerks were killed and one wounded. His Abrigo hacienda was also visited and robbed of provisions.

The man who was guarding the house of F. Cobian, was shot and killed through a misunderstanding.

Wheat Crop Abundant. The abundant wheat crop which has been raised in this section is beginning to move at Torreon, Loma, Pedriciana, Viesca and La Mancha and a large number of extra freight cars are in steady demand.

Additional Train Service. It is rumored here that the Mexican International train running between Torreon and Piedras Negras will be converted into Nos. 5 and 6, and will become a continuous run between Piedras and Mexico City as an extension of the present 3 and 4 between Zacatecas and Mexico. This, if put into effect, will give a double daily service between Torreon and Mexico City. The recent heavy rains are interfering with train service in a few instances, especially between Jimenez and Chihuahua. Monday's train from Ciudad Juarez was eight hours late and the train is marked up six hours late today.

MONTEREY SMELTER MEN OUT ON STRIKE. Four Hundred Quit Work. Demand More Pay and Refuse Compromise. Monterey, Mexico, July 6.—Four hundred workmen in the smelter of the American Smelting and Refining company, located one mile north of this city, are out on strike.

It is said that those who left their work are earning only 75 cents Mexican money per day and have made demands for an increase of 25 cents per day more. The management offered to compromise at 12 and a half cents more, but the men refused to return to work at any such rate. It is thought that the company will be compelled to accede to the wishes of their men.

RESUME PAYMENT OF MONEY ORDERS. The Juarez postoffice is again operating its money order department and is receiving and making payment on all orders of the Mexican postal service. The department has been open for several days.

Jute Folkner, for the past three weeks at a local hospital with typhoid fever, is much better, and will be out in a few days.

MAPIMI MINERS HAVE RETURNED TO WORK. Torreon, Mexico, July 6.—To all appearances Mapimi is as quiet as usual, and there is no indication of a recurrence of the events which marked the strike.

The men have returned to their work at practically the same wages that they received before, but a concession was made to them in the removal of two foremen who were objectionable to them. The Maderist force now in camp is believed to be sufficient to preserve the peace.

Although it is said that the two foremen who will leave are not separating from the company as a result of the settlement of the trouble, but had secured a leave of absence, it is known that some of the troublesome leaders were prejudiced against one of the mine foremen, and the foreman of the arsenic department. They will go to El Paso.
